1. The amount to be transferred under Flex STP from source scheme to target scheme shall be calculated using the below formula:
$$\text{Flex STP amount} = [(\text{fixed amount to be transferred per instalment} \times \text{number of instalments already executed, including the current instalment}) - \text{market value of the investments through Flex STP in the transferee scheme on the date of transfer}]$$

Subsequent capital appreciation, if any, will be the capital appreciation between the previous CASTP date (where CASTP has been processed and transferred) and the current CASTP date.
7. In case end date is mentioned but start date is not mentioned, the application will be registered after the expiry of 10 days from the submission of the application for the date of transfer mentioned in the application, provided the minimum number of instalments is met.
8. Minimum investment requirement in the target scheme and minimum redemption amount in the source scheme is not applicable for CASTP.
9. Investor can register only one CASTP for transfer from a source scheme.

Swing STP:

Swing STP is a facility wherein investor can opt to transfer an amount at regular intervals from source scheme of SBI Mutual Fund (SBIMF) to a target scheme of SBIMF including a feature of reverse transfer from target scheme into the source scheme, in order to achieve the targeted market value on each transfer date in the target scheme. This ensures that the market value on each date of the transfer rises by a specified amount at every frequency irrespective of the market price. For example if investor decides that the value of their investment in the target scheme should appreciate by Rs. 1000 per month, then each month investor will invest only to the extent of the shortfall. If appreciation in the target scheme is higher than the target value then this excess value is reverse transferred to the source scheme. Thus the amount to be transferred will be arrived at on the basis of the difference between the target market value and the actual market value of the holdings in the target scheme on the date of transfer.

Terms & conditions of Swing STP are as follows:

1. Source scheme: All open ended schemes (Excluding SBI Magnum Taxgain Scheme and ETF schemes) of SBI Mutual Fund.
2. Target scheme: Growth option in all open ended schemes (Excluding SBI Magnum Taxgain Scheme and ETF schemes) of SBI Mutual Fund.
3. Frequency: Weekly, Monthly and Quarterly intervals. In case the Fre-

quency is not indicated, Monthly frequency shall be treated as the Default Frequency.

4. Dates: The dates of transfers/ default dates shall be as under:

Frequency	Dates of Transfers	Default Date
Weekly Interval	1 st , 8 th , 15 th & 22 nd of every month	
Monthly Interval	1 st , 5 th , 10 th , 15 th , 20 th , 25 th & 30 th (In case of February last working day)	10th of every month
Quarterly Interval	1 st , 5 th , 10 th , 15 th , 20 th , 25 th & 30 th (In case of February last working day) The beginning of the quarter could be any month e.g. January, May, November, etc.	10th of every quarter

In case the date of transfer falls on a non-Business Day, the immediate next Business day will be considered for the purpose of determining the applicability of NAV and processing the transaction.

5. The minimum amount for the first installment shall be as follows:

- Weekly & Monthly frequency: Rs. 1,000 and in multiples of Re. 1
- Quarterly frequency: Rs. 3,000 and in multiples of Re. 1

6. Minimum number of installments

- Weekly & Monthly frequency: 12
- Quarterly frequency: 4

7. If there is any other financial transaction (purchase / redemption / switch / SIP / DTP etc.) processed in the target scheme/plan/option during the tenure of Swing STP, the Swing STP will be processed as normal STP for the rest of the installments for the fixed amount.

8. Amount of transfer: The first Swing STP installment will be processed for the installment amount specified by the investor at the time of enrollment. From the second Swing STP installment onwards, the transfer amount will be derived by the following formula:

(First installment amount X Number of installments including the current installment) – Market Value of the investments through Swing STP in the target scheme/plan/option on the date of transfer.

In case on the STP date, the amount (as specified above) to be transferred is not available in the source scheme/plan/option in the investor's folio, the residual amount will be transferred to the target scheme/plan/option and Swing STP will be closed.

9. Reverse Transfer: On the date of transfer, if the market value of the investments in the target scheme/plan/option through Swing STP is higher than the target market value (first installment amount X number of installments including the current installment), then a reverse transfer will be effected from the target scheme/plan/option to the source scheme/plan/option to the extent of the difference in the amount, in order to arrive at the target market value.

10. **Top-up option:** Investor can choose Swing STP based on fixed amount installment and additionally investor has an option to choose top-up option. Under this, investor can indicate an absolute amount or percentage (in annualized terms) by which each installment amount will be increased. Amount of transfer will be calculated by taking into consideration of the target market value (including top-up amount) and actual market value of the investments in the target scheme.

Amount of transfer: The first Swing STP installment will be processed

for the first installment amount specified by the investor at the time of enrollment. From the second Swing STP installment onwards, **the transfer amount will be derived by the following formula:**

In case Top-up amount mentioned as absolute amount:

Target market value Minus Market Value of the investments through Swing STP in the target scheme/plan/option on the date of transfer.

Target market value = (Target market value at the time of last installment + First installment amount + (Top-up absolute amount X Number of installments excluding the current installment)).

Minimum amount for Top-up (absolute amount):

- Weekly & Monthly frequency: Rs. 50 per installment and in multiples of Re. 1
- Quarterly frequency: Rs. 100 per installment and in multiples of Re. 1

In case Top-up amount mentioned in percentage:

Target Market Value less Market Value of the investments through Swing STP in the target scheme on the date of transfer.

Target Market Value = (Target market value at the time of last installment + First installment amount + (Target value at the time of last installment X Top-up percentage/ No. of periods))

No. of periods will be considered as below:

- For weekly frequency – 52
- For monthly frequency – 12
- For quarterly frequency – 4

Minimum percentage for Top-up (percentage option): 12% per annum

- Investors have an option to consider the existing investments in target scheme for calculating swing STP amount.
- A single STP enrolment Form can be submitted for transfer into one Scheme/Plan/Option only.
- The redemption/switch-out of units allotted in the target scheme shall be processed on First In First Out (FIFO) basis.
- The provision of 'Minimum Redemption Amount' as specified in the Scheme Information Document of the source scheme (target scheme in case of Reverse Transfer) and 'Minimum Purchase Amount' specified in the Scheme Information Document of the target scheme (source scheme in case of Reverse Transfer) will not be applicable for Swing STP.
- The application for enrollment / termination for Swing STP should be submitted at least 10 days before the desired commencement / termination date.
- In case the Start Date is not mentioned, the application will be registered after expiry of 10 days from submission of the application as per the default date i.e. 10th of each month / quarter (or the immediately succeeding Business Day). In case the End Date is not mentioned, the application will be registered for perpetual period.
- Load structure prevalent in source & target schemes (for reverse transfer) at the time of Swing STP registration will be applicable during the tenure of the Swing STP.
- Swing STP will be automatically terminated if balance is not available in the source scheme/plan/option on the date of Swing STP installment processing.
- The Swing STP Facility is available only for units held in Non - demat Mode in the source and target schemes.
